4) HR Philosophy (give opportunity for full exercise of talent)
5) Helps in their growth

SMART: Specific in targeting objective
Measurable indicator of progress.
Accountable to one person for completion

Realitically be done by with available resource. Time related.

RACI MATRIX: (Responsible, Accontable, Consulted Informed).

WIP = Work in Progress.

MRO. Maintainance Repair Operations. sipplier.

Fishbone Diagram: (Root Analysis)
1) People 2) Policies 3) Process
4) Work environment 5) Compensation & Revenue 6) Communication.

Steps in Inventory Proces: (Systematic way ~~Root Analysis~~)
1) Purchasing Procurement. 8) Disposal / Returns.
2) Receiving
3) Storing
4) Tracking & Recording
5) Issuing & Picking
6) Replenishment
7) Auditing & stacking

IQC: Instant Quality Check.

Six Sigma: Methodology to identify defects. (defects free resources)

AGV: Self guided robot
(for efficiency, safety, production unit)

Value Stream Maping: (tool)

MP = (Man Power)

PM Constraints: Time / Budget / Scope
Further
Risk, Quality, etc.

Lecture # 2

Setting Order:

1) Sorting : As per need / discard.
2) Prioritize : As per required Sort
3) Setting Order: leaving placement / making object
4) Shine away.
5) Check Sheet.
6) Sustain : Maintaining Check list.
7) Kaizen : Continue promoting ideas.

* Service industry analyze data on intangible base like ratings.

1) Energy Saving ideas.
2) Employee compliance ideas.

CPM : (Critical Path Method.)

→ Project Scheduling Technique.
→ Max time. duration of Product ∧

CPM Keys.

1) Activities / Tasks : Work to be done.
2) Dependencies : Order in task
3) Critical Path : zero slack.
4) float / stack : Extra time without effecting PM.

2 Methods of CPM:

1) Forward 2) Backward.

Sequential Activity: Done one after

Parallel Activity: Done Simultously

Productivity: Product without deffect/quality

Efficiency: Accurately/minimum waste

Program → Projects → Operations.

↓ ↓

temporary Daily basis

↓

Predictable

HR Management: Best Result (optimum)

Importance of HR:

→ Voilation of labour law.

→ Occupational Safety laws of unsafe practices.

→ Salaries are unfair.

→ lack of training.

→ Unfair treatement, practices.

KPI = (Key Performance Integration)
Scoreboard of performance.

Job Enrichment: Extra work done during you time duration in company / organization.

Project life cycle:

1) Defining / Initiating.
2) Planning
3) Executing / monitering / controlling
4) Delivering / closing /

Accident: Injury, damaged, harm

Incident: May or May not harm, Injury, minor damaged

lecture #3 Diversity

Diversity: The inclusion of people with different backgrounds, skills, experiences, & perspectives with in a team or organization.

Types of Diversity:

1) Surface-level diversity /
2) Deep-levels diversity.

1) Surface-level: gender, race, ethenicity, age, disability etc.

2) Deep-level: work performce, values, personality

Diversity ⟨ Negative
Possitive

Ability: An individuals Capacity to perform.

1) Physical Ability: to do physical (capacity)
2) Intellectual " = to do mental (capacity)

GMA = General Mental Ability.
→ factors of Intelligence

Dimensions of Intellectual Ability:

Dimensions — Job example.

1) Number Aptitude ⇒ Acccountant
2) Verbal Comprehension ⇒ Plant Manager
3) Perceptual Speed ⇒ Fire Investigator
4) Inductive reasoning ⇒ Market researcher
5) Deductive " ⇒ Supervisor
6) Spatial visualization ⇒ Interior decorator
7) Memory ⇒ Salesperson

Diversity Management:

→ To avoid workplace discriminatory practices.
→ Make everyone aware of and sensitive to the needs & differences of others.

5 Steps of Diversity Management:

1) Acces the Situation:
2) Provide strong leadership

Org Culture [Strong → Key values widely shared.
[weak → Key values are limited

Competition: healthy / Possitive / promotive

effective Communication: More Business.

high Productivity = high business.

Dimensions Of Organizational Culture:

Influence of Environment:

1) External Environment: (Outside forces)
   - → Customers
   - → Suppliers
   - → Competitors
   - → Pressure groups.

2) Internal Environment: (general environment)
   - → Economic Conditions → Demographic
   - → Political/legal Conditions → Technological
   - → Socio-Cultural " → Global

Lecture # 4 HR Planning & Job Analysis

Basic HRM Functions.

(1) → To Retain
(2) → To Obtain
(3) → To develop
(4) → To Utilize

Line & Staff Authority:

1) Authority
2) line Authority
3) Staff "
4) line Manager
5) Staff "
6) Implied Authority.
7) Functional "

HR Goal: → [Job description]

min education ↔ → Roles & Responsibilities

min skills

→ Internal / Non management Staff (unskills, clerk)

→ Internal / management staff → Blue collar / skills.

HRM Project Team:

1) Planning Project Team
2) Acquiring " "
3) Developing " "

4) Managing Project Team.

HR Planning: A praces to identify.

Right → Skills
→ Motivation
→ people (approp riate abilities)
→ numbers
→ place (Job allocation)

HR Planning & forcasting:

1) Employment or Personnel Planning:
→ Position in firm to fill
→ how to fill.

2) Succesion Planning:
→ fill Company's most important executive jobs with in.

3) forcast.
→ Personnel needs
→ Inside Candidates
→ Outside "

Forcasting Personnel Needs:

1) Trend Analysis: Past employement needs

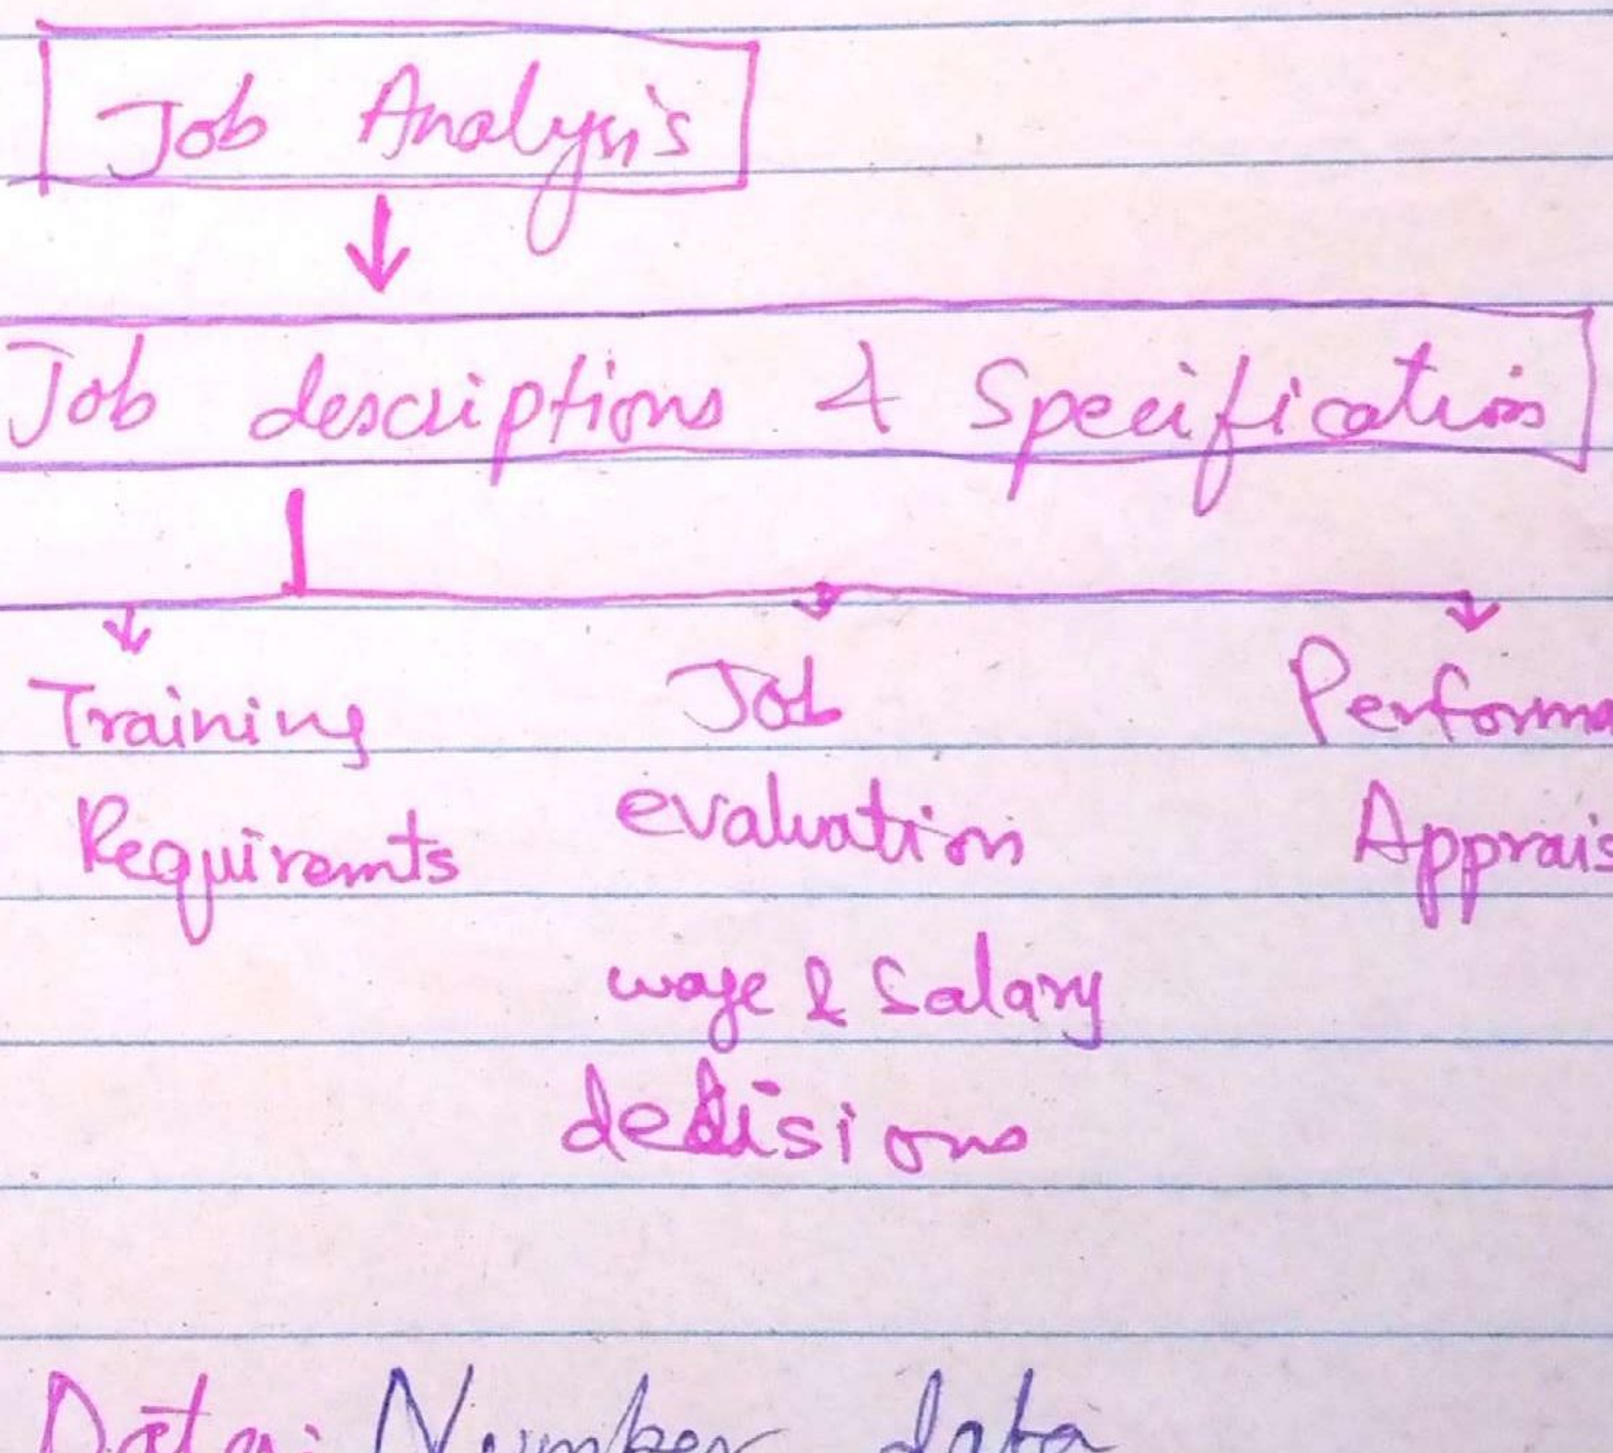

to predict future needs.

2) Ratio Analysis = Future staff needs by using ratio between casual needs and employee needs.

Job Analysis: ⟹ skills & duties requirement

Job description: ⟹ responsibilities, reporting relation, working conditions

Job Specification ⟹ Human requirement (education, personality)

* Statistical Data: Number data
* ~~forcasting~~ Verbal Data: forcasting/evaluating why, How

Job Description:

→ Job title
→ Preparation date
→ Prepared

① Job Identification

② Job Summary → • General nature of Job
• Major functions / activities

③ Working Conditions.

④ Responsibilities & Duties → • Major Responsibilities
• Decision-Making
• Direct Supervision
• Budgetary limitations

⑤ Relationships → • Reports to
• Supervises
• Work outside the company

Lecture #5: Project Training & Development.

Orienting Employees:

1) Employee Orientation

To provide basic information about company.

→ Policies (HR)
→ Procedures
→ Daily routeen/Activity.
→ Medical Benefits
→ Safety measures.

Successful Orientation:

Should accomplish 4 things for new employee

1) Feel welcome & ease.
2) Help in understanding the organization
3) Work & Behaviour.
4) Socialized into firms.

Training Process:

A proces to teach new employee basic skills (employees are working toward organizational

→ web-base training.
→ Distance learning-base training.
→ Cross-culture training.

→ Awareness & effective communication.

Training & Development Process:

1) Need Analysis:
   → Identify job peformance skills.
   → Assess ~~pppp~~ trainees skills.
   → Develop objectives.
2) Instructional Design:
   → Produce training Program content.
   → Including workbooks,
   → exercise & activities.
3) Validation:
   → Pilot study
   → test on small scale
4) Implement the program:
   → training the targetted employee group.
5) Evaluation:
   → Assess the program succes/ failure.

Learning Meaningful:

→ SME ⇒ Small & medium size enterprise
→ Use as many visual aids as possible.
→ Present logically & in meaningful units.
→ Use teams & concepts familar to trainee.

Make skills transfer:

→ Provide adequate practice.
→ Direct trainees attention to important aspects of the job.
→ Maximize the situation (training & work station).
→ label steps.

Motivate the learner:

→ Provide realistic practice as possible.
→ Individual mind should be clear.
→ More than half day trainingshould not be given.

Analyze Training Needs:

1) Task Analysis → Identify specific skills. (detailed Job structure)
2) Performance Analysis → Performance deficiency (determine deficiency to resolve through training or transfer)

Training Method:

1) On Job training (OTJ)
2) Internship: (Classroom Instruction & OTJ combination)
3) Informal learning → through friends/colleges.
4) Job Instruction training (JIT) → step by step training.

Condition:

→ Effective lectures
→ literacy training techniques: (dexiterities skills)
→ Audiovisual-Based training: (Teletraining, video conferencing, Internet)
→ Simulated training: CBT, EPSS, learning portals.

Management Development:

Improve current or future management by knowledge, changing attitudes or increasing skills.
