BAHRIA UNIVERSITY,
(Karachi Campus)

Department of Software Engineering

ASSIGNMENT#02 – Spring 2025

COURSE TITLE:	**Data Encryption and Security**	COURSE CODE:	**CEN-451**
Class:	**BSE – 8A&B**	Shift:	**Morning**
Course Instructor:	**DR. OSAMA REHMAN**	Date:	**12-May-2025**
Due Date:	**19-May-2025**	Marks:	**7.0 Marks**

Instructions:

1. **Question#1 & 2 are "Complex Engineering Problems (CEP)" having the attribute of no obvious solution.**
2. **This is an individual effort task.**
3. **Write your full name, registration number and section on the title page.**

Q1. While using Google Chrome as the web-browsing tool, extract the information required as indicated below from the "Digital Certificates" of any two websites of your own choice. Prepare separate tables for each chosen website. **[CLO#5, CEP, 4.0 marks]**

S#	Parameter	Answer
1	Google Chrome Version	
2	Website URL	
3	Issued to Common Name (CN)	
4	Issued by Common Name (CN)	
5	Issued On	
6	Expires On	
7	Subject Public Key Algorithm	
8	Subject Public Key Value	
9	Public Key Length *(bits)*	
10	Public Key Length *(decimal)*	
11	Hash Function Algorithm	
12	Device Name / ID *(From Computer)*	

Q2. Choosing one of the websites selected in (Q1), Export its certificate into your device and get it installed into your "current user" account and while using "automatic" selection of location based on certificate type. Once installed, locate where the certificate is installed using Windows "certificate manager". Provide snapshots of the whole process conducted along with snapshot of the location in which the certificate is installed. **[CLO#3, CEP, 3.0 marks]**

Good Luck!
